

GUEST SPEAKER AT C. OF C. MEETING

Don Rollans Tells of Trip to Russia and Life Behind the Iron Curtain

Don Rollans, News Director of radio station CHED, Edmonton, was guest speaker at the regular meeting of the Viking and District Chamber of Commerce held in the Community Hall Thursday evening, September 5th.

In 1955 Don made a trip to Moscow, Russia, under the auspices of the broadcasters and radio announcers of Canada with a view of seeing for himself and his sponsors just what was going on behind the Iron Curtain, and tell a story of just what he saw and his impressions of how the people of that vast country live, work and prosper. His stay behind the Iron Curtain was confined to the capital of Russia, Moscow, and the story of his visit related of the way the Russians lived, worked, dressed, of their education and their earning power.

He left from Montreal by plane to Helsinki in Finland, then on to Moscow without any undue incident, and after a cursory examination by the customs officers, rode by bus to the Metropole hotel which covers four ordinary city blocks.

Don stated that while the individual as such counts for little in Russia, the State has progressed greatly since the 1917 revolution and living conditions have improved somewhat. Prices of staple goods are comparative to Canada, but clothing, blankets, shoes, and nylon stockings are very high. Average wages for workers are only \$10.00 per month, so that it is necessary that both husband and wife work. Women do all the jobs that men do, brick laying, plumbing, street sweeping, etc., at men's wages.

There are not many cars in Russia, said Don, and as a result the city of Moscow has a most amazing system of underground railways. With the wages the workers receive no one can afford a car except government officials. The license is difficult to obtain and the price of gasoline is prohibitive for the ordinary person, so they walk or ride the State-owned subway trains. There are no traffic problems to speak of.

One phase of the Russian policy that impressed the speaker was the Moscow agricultural exhibition which is carried on for ten months of the year. This is an effort to demonstrate improved methods in all lines of agricultural efforts. Agriculture in Russia suffered severely during the last war. Buying or owning cars by workers or farmers on State owned and operated farms was out of the question due to low living. The price of gasoline was prohibitive and also scarce, and anyone applying for a car or driver's license had to dismantle the car and put it together again.

All the mothers in Russia work and the State takes over the care of the child at the age of five weeks. At that time the mother leaves the baby in a public creche during the day and takes the infant home at night. From the time the baby is left in the creche a file is set up on his or her aptitudes and this continues through its entire education. The young person is thus channeled into a trade or profession as revealed by his or her aptitudes. When graduating from a university the student is sent to where ever the State thinks he is most needed or adapted.

Don gave a vast amount of information about the average Russian, stating that all he appeared to want was peace, shelter, and security. A marriage license cost \$1.50 and if you wanted to call it quits, all it cost was \$35.00 and you could go and find another mate.

As news from the outside world is not allowed in Russia, the average Russian does not know or believe that Canadians can travel from one end of Canada to the other without a passport. Anyone living in Moscow has to get a passport to visit the next town. Just imagine if we had to get a visa to visit Bruce or Kinross, or vice versa.

Don was accompanied by his father, Horace Rollans, who, a few years ago was secretary-treasurer of the Viking hospital district, the co-operative creamery association, and the former M.D. of Iron Creek. Both he and Don were warmly greeted by many old time friends.

BUSINESS SESSION

In the unavoidable absence of

Jarrow News

Mrs. H. Brown who has been living at the coast is visiting with her sister Mrs. H. Whidden. Mr. and Mrs. Roland Bick and family of Cobalt, Idaho, had Mr. Henry Bick of Medicine Hat visited in the Jarrow district one day last week.

To the M and M fund in memory of Mrs. S. Magrath from Mr. and Mrs. G. S. Mathew. Mrs. Percy Wright visited with her father Mr. Beamish last Monday. Mr. Beamish who is 80 years young was here from Vancouver and was at the home of his son Mr. Tom Beamish of Viking.

George Rawluk, Gordon Meakins, W. Orzechski and H. G. Smith have had deep water drilled this summer. This will mean a goodly supply of soft water.

Our congratulations are extended to Mr. and Mrs. Kyle Kaser whose wedding took place at Portland, Oregon on August 28. Mrs. Kaser was Miss Stella Lindberg and her many friends wish for her the very best.

Mr. Wm. Ferrier will conduct his last service on the Jarrow field next Sunday, September 15 at 3 p.m. This will be our annual Thanksgiving service.

Mr. and Mrs. Carl Sonett visited with the A. Sonetts at Ardrossan on Sunday.

Mr. and Mrs. Osborn of Marboro renewed old acquaintances in the Jarrow district on Sunday.

Notice To Creditors And Claimants

IN THE MATTER OF THE ESTATE OF OLAV HALVORSEN, LATE OF THE DISTRICT OF IRMA, in the Province of Alberta, Farmer, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named, Olav Halvorsen, who died on or about the 16th day of August, 1957, are requested to file with the undersigned by the 28th day of October, 1957, a full statement duly verified of their claims and of the securities held by them, and that after that date the Executor will distribute the assets of the Deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

Sigurd Lefsrud, Solicitor for the Executor, Viking, Alberta.

13-20-27c

Large Attendance At Viking School

On opening day, September 3, the attendance numbered 533 children registered and this is expected to increase. The school staff is now complete with 24 teachers. The high school teachers are Mrs. W. Carpenter, Mr. A. Fell, Mr. F. W. Powell and Mr. J. R. Hemphill.

Rooms in the new school wing are being used. Dedication ceremonies will be held at a later date.

BACK TO SCHOOL

I GOT IT THRU THE WANT ADS

The Wood Duck, brightest colored duck found in Canada, nests in hollow trees and stumps. Even ornithologists are unable to find the young birds, before they can fly, get out of the high nests and down to the ponds and streams where they are reared.

In 1956 retail spending in Canada averaged about \$3,600 per family in taxation about \$2,000 per family.

In 1955 there were 600 cases of all types of polio myelitis reported in Canada, compared to 1,020 cases in 1955 and 8,978 cases in 1953, the all-time high.

The popular phrase applied to the R.C.M.P. "They always got it" was apparently confirmed by a visiting American newspaperman shortly after the Mounted Police force came into existence.

News Report from Edmonton

By Ken Mason

EDMONTON—The final and irrevocable act of folly is the year Opposition Leader J. Harper Prowse described the oil and gas royalty dividend plan when the provincial government announced it in the Legislature last March.

Well, the dividend plan went into effect last week and Mr. Prowse admitted he will be lining up with thousands of other Albertans sometime within the next four months to collect his \$20 share of the province's oil and gas development.

"I still think it's wrong in principle and everything I said against it goes," he said. "My attitude is the same as that of most citizens. If the money is going to be squandered anyway, I may as well get my share."

Mr. Prowse said he'll wait until around Christmas, Dec. 31 is the deadline. Actually, he'll be carrying out a promise he made in the Legislature.

After a particularly strong speech by Mr. Prowse against the dividend scheme, Social Credit John Landeryou said it would be fine if the Liberal leader didn't collect his bonus, because it would mean that much more in the pot for next year's pavo.

"The honorable member is crazy if he thinks I'm going to leave my \$20 so he can get his hands on it," Prowse replied.

Indications are most of the notable opponents of the plan will be picking up their dividends. On the other hand, so will Premier Manning and members of his cabinet.

Queues of citizens formed outside all banks and treasury branches here in the capital city before opening time on the day payments started. Officials were unprepared for the rush and applicants stood in line for hours while harassed clerks checked identification, distributed forms and issued cheques.

An estimated 5,000 cheques were issued on the first day, and around the same number on the second. Most of the applicants looked like people who could use the money, but there were also a number of prosperous-looking applicants taking their share of the loot.

It didn't take the sharpies long to spot a good thing. City police reported wholesale abuse of the payoff by assorted shady characters who were making the rounds of banks and collecting as many \$20 bills as they could. Beer parlors did a brisk business.

Detectives say they'll have to make a long and drawn out investigation. It may be some time before fraudulent claims can be detected by processing application forms through an electronic

sorting machine. "It's going to cost the government about twice as much as anticipated," said a police spokesman. In addition to characters known to police, there are apparently some citizens who don't meet the residence requirements but are picking up cheques anyway.

Unless the defrauders take too much, officials expected there will be money left in the fund for next year's distribution. Combined with an expected increase in royalties this year, it could mean a boost to around \$25 for next year's payment.

An increase in the payment might not hurt the government in the next election, which can be expected in 1959 or 1960. That's assuming, of course, that once it gets a smell of money the public will turn in favor of the idea.

Mr. Prowse says he's sure the majority of Albertans agree with him that it's a waste of money. However, he wouldn't say whether he advocates abolishing it when campaigning in the next election.

Provincial Treasurer Ted Hinman says he doesn't think any political party will dare to promise to abolish the scheme once the public gets used to it and accepts a few payments.

The question is, should the money go to everyone or go to other essential services? It's bound to be an issue, and only an election will provide the answer. The number of applications for payment is no indication of public attitude because, as Mr. Hinman admits, "even our severest critics will be collecting their dividends."

Social Credit is making a strong bid to capture the Calgary Legislature set at stake in a by-election slated for Oct. 2. The vacancy is caused by the resignation of Conservative Art Smith, who now is a member of Parliament.

The Social Credit candidate is Samuel J. Helman, prominent Calgary lawyer, and Premier Manning indicated at a news conference that he was not intending convention that he will become attorney-general if elected. Secured ranks in the House have been without a lawyer since the defeat of Lucien Maynard in 1955, and the premier has been carrying the portfolio. Mr. Helman acted for government departments during the 1955-56 royal commission probe into charges of maladministration against the government.

MATTINSON — PEDERSON

A very pretty summer wedding was solemnized in St. Matthew's Anglican Church, Viking, on July 8 when Miss Joyce Pederson became the bride of Mr. Wm. Mattinson. The Rev. A. Heron performed the ceremony which united the daughter of Mr. and Mrs. L. Pederson of Kinross and the second son of Mr. and Mrs. W. Mattinson of Viking.

WITH THE District Agriculturist

By J. S. Duncan

World Seed Shows

Alberta has always done well at the seed shows at the Toronto Royal Winter Fair and the Chicago 4-H exhibition. The Alberta Department of Agriculture pays the cost of shipping the exhibits from Edmonton, to Toronto or Chicago, but the exhibition must make the entry and pay the entry fee direct to which ever show it is going to. Prize lists and general information are available at my office. Entry forms must be sent to Toronto, before Oct. 24 and to Chicago before Nov. 16. Anyone in this district who is interested in exhibiting at one or both of these fairs, should get the information they need now.

Lacombe Boars to be Released
According to information received there are to be 50 boars of the Lacombe breed released for sale this year. As there seems to be a big demand for these boars, applications are to be made direct to the Experimental Farm, Lacombe, and a draw will be made to decide who gets them. The deadline for application is September 15.

Fertilizer on Pasture Land
Fertilizer trials, according to the Indian Head Experiment Farm, have shown that fall application of nitrogen fertilizer gives the best response. It also appears that use of nitrogen fertilizer decreases the danger of bloat on pastures containing alfalfa. Farmers in this district might wish to advise us to try this out on a small acreage to see if the same thing is true here. Indian Head found that rates of up to 50 pounds per acre of Ammonium Nitrate (nitrapill) gave increases of one and a quarter tons of hay per acre. The cost of experimenting on about five acres is not too great and would show what the results are on your farm.

A WINTER CLASSIC

The scout is saving odd-job earnings
to buy a movie camera

The scoutmaster is saving to cover future
expenses of his growing family

Both have a
bank account - and
a purpose for saving

Each has a different objective, but both are
working on the same idea: that to get ahead
it is important to save ahead, too.

Your reasons for wanting to build up your
bank account can be as varied as human
hopes and needs... a vacation, your child's
education, a new rug, camera equipment; or
simply the deep satisfaction and sense of security
that a cushion of ready cash creates.

A chartered bank is a convenient place to
keep your savings safe, and to keep them
growing. Whether your account is large or
small, the trained and friendly staff is there to
take care of all your banking needs.

Save at a bank - millions do!

To the Rodino Memorial fund
in memory of Mrs. G. Faulkner
from Mr. and Mrs. Harry Van-
dervaele, Mannville.

Mr. and Mrs. Ben Brady of
Edmonton were down to attend
the funeral of Mr. J. Brady.

Brent Hollar is a happy little
six year old, off on the road to
knowledge with the older young-
sters this year.

Messrs. O. and R. Hollar were
in the city this week.

Mr. Charles Saville of White-
court has been visiting his sister
Mrs. Phil Holt and family.

Mr. and Mrs. John Archibald
and family of Edmonton called
at the Phil Holt residence on
Monday.

Miss Pamela Puget is home
again after a vacation in Eng-
land.

Mr. and Mrs. H. Vandervaele
spent a day at Vermilion.

Mr. and Mrs. Beckett and
children motored to Vegreville
Saturday.

FUNERAL FOR JOHN BRADY

Rev. I. Holter conducted a most
comforting message to the fam-
ily of Mr. John Brady, late of
the Willowview district, in Min-
burn United church on Monday
September 2. Interment was in
Minburn cemetery. Funeral ar-
rangements by Ronaghan Fun-

KNOW YOUR Canada

Prepared by the Research Staff of
ENCYCLOPEDIA CANADIANA

Who was "the human dynamo"?

The world's fastest human on
skates in his day, Charles Ingraham
Gorman of Saint John, N.B.,
skated his way to seven world
records and a place in the Cana-
dian Amateur Athletic Union
Hall of Fame. Gorman, who died
in 1940, had his most outstand-
ing year in 1927, when he took
part in five meets, won four and
tied the fifth, breaking two
world records and tying another.
In a period of 11 days he won
16 events.

How did Canada's first Victoria
Cross hero win his award?

At the furious fighting that
marked the relief of Lucknow
in 1857 during the Indian Mutiny,
a young Nova Scotian, Wm.
Edward Hall, volunteered to
serve at an exposed gun position
and fired the shot that breached
the enemy's defences. For this,
he received the Victoria Cross.
Hall, whose father had been a
Negro slave, grew up at Hoston
Bluff, N.S., and went to sea at
an early age. A memorial was
unveiled at Hantonport in 1947
and a Negro branch of the Cana-
dian Legion at Halifax bears his
name.

What is the Curse of Fernie?

An old Indian curse hangs
over the city of Fernie, B.C., ac-
cording to legend. The story goes
that William Fernie had heard of
the coal deposits in the neigh-
borhood and promised to marry
an Indian princess if told their
exact location. He was given the
information but did not keep his
promise of marriage and the
girl's vengeful mother put a
curse on the whole valley in
1887.

How did Bracebridge, Ont., get
its name?

The town of Bracebridge, Ont.,
was named by the postmaster
general of Canada to commem-
orate Washington Irving's book,
Bracebridge Hall. He named the
town of Gravenhurst, Ont., for
a fictional place mentioned in
the same novel.

eral Home of Viking.

Mr. Brady was born on Aug-
ust 5, 1897 in Plainsville, Wis-
consin. Early in the century he
came to the Battle River area.
He also lived north of Mannville
and he spent his last years
south of Minburn where he
farmed and ranched till illness
overtaken him.

He leaves to mourn six child-
ren, Ellen (Mrs. M. McInroy of
Mannville), James, Vernon, Ed-
win, Lloyd and Stanley and one
grandson.

Pallbearers were Messrs. R.
Astley, Wm. Revill, J. Miller, H.
Astley, R. Rustad and L. Hunter.
Mr. Brady had been ill for
several months and had been
hospitalized in both Mannville
and Viking. He passed away at
the latter place on August 26.
"May he rest in peace."

Premier Makes "Drive-In" Deposit

Premier Douglas L. Campbell
of Manitoba is seen making the
first deposit at the opening of
the new Bank of Montreal's
"drive-in" branch at Fort Garry,
on Monday, August 26. Acting
as teller for the occasion was
R. L. Bailey, assistant general
manager of the B of M's Mani-
toba, Saskatchewan and Alberta
division. New time-saving drive-
in means most banking business
can be completed right from the
driver's seat. The branch is the
first of its type in the Prairie
region.

NEEDED:

MORE TRAINED AGRICULTURISTS

The demand for qualified agriculturists, today, greatly exceeds the supply and on the Colleges and Faculties of Agriculture in Western Canada prepare to enroll students for the coming term, we are pleased to draw attention to the opportunities that exist in this important field. Many young men, perhaps, are not aware of the wide range of careers and jobs open to graduates in agriculture. With this in mind, the Agricultural Institute of Canada recently prepared a booklet entitled "Careers in Agriculture," a copy of which can be obtained through your agricultural representative or direct from the Faculty of Agriculture at your Provincial University.
